

Melbourne Wood Supply
LVL Manufacturer

Your Trusted Partner in Structural Timber Solutions

At **Melbourne Wood Supply Pty Ltd**, we specialise in supplying high-quality structural timber products to the Australian construction market. Based in Heidelberg West, Victoria, our 3,000+ square metre warehouse enables efficient distribution to builders, contractors, and resellers nationwide.

With our own purpose-built manufacturing facility in China, we produce structural LVL and CDX plywood engineered to meet Australian standards. Our factory operates three LVL production lines (**8,000m³/month**) and two plywood lines (**5,000m³/month**), ensuring reliable supply and consistent quality.

As an OEM supplier to several leading Australian LVL brands, our products are trusted across residential, commercial and infrastructure projects in all major cities.

Our structural LVL is manufactured using premium imported larch and E0-grade WBP adhesive, delivering a density of **730 kg/m³**. This ensures exceptional strength, stability, and long-term performance — fully certified and compliant of **AS/NZS 4357**.

Melbourne Wood Supply combines local knowledge with global manufacturing capabilities to provide competitively priced, standards-compliant timber solutions that the industry relies on.
